Every year, droves of new clubs and venues set up shop in hopes of bringing a revolutionary concept and authentic experience for partygoers. But, once in a blue moon, one stands out from the rest and catches the eyes and ears of music lovers everywhere. Let me introduce you to **Cove Manila**, a fusion of massive indoor beach club and luxurious intimate night club. A perfect blend of unique sensory experiences and party-inducing features that gives you the ultimate day-to-night hub for nonstop fun.

Cove Manila looks to put the **Philippines** on the map this year for electronic music fans worldwide with its **Funktion-One** high-resolution sound system, a butterfly-shaped pool surrounded by genuine white sand, swim-up bar, deluxe beach house bungalows, a state-of-the-art chandelier capable of immersing the audience with its stunning 10,000 FX visuals, **infinity jacuzzis**, and much more. All comfortably nested in a 30,000 ft² venue that also boasts an elegant and visually appealing 100 ft tall UVB protected glass dome (so leave that sunscreen bottle at home).

What's Vegas again?! Seriously, with it's 5 fully stocked bars, 20 service wells, and Grab N' Go food concepts, Cove Manila is shaping up to be the party mecca of the future! Did I mention that they have an **in-house studio** with advanced recording facilities? Perfect for those who feel particularly confident after crushing their karaoke set in the entertainment room of a pool-side bungalow suite.

Bringing the most popular and hype-worthy acts in various genres like EDM, Hip-hop, Pop, and R&B, you can be sure that you'll get the full musical spectrum.

Cove Manila will be opening in 2017, be sure to check out their website www.covemanila.com for details and updates.
